2021 Leadership in Philanthropy Award

KIM NG

General Manager, Miami Marlins

Kim Ng is the General Manager of Major League Baseball (MLB) team Miami Marlins. She made history as the first woman to become a general manager of a men's team in the history of major North American sports, as well as the first female Asian-American and first East Asian-American general manager in MLB history. Ng has more than 30 years of experience working in baseball, including eight postseason appearances, three World Series titles and six League Championship Series appearances during her time as a club executive.

Ng began her career as an intern with the Chicago White Sox. She was hired full-time in 1991 and made her way up to Assistant Director of Baseball Operations. In 1997, Ng was with the American League which led to her recruitment to the New York Yankees as an Assistant General Manager in 1998, achieving another first as the youngest person in the role at that time and second woman to ever hold the position. After the 2001 season, she joined the Los Angeles Dodgers as Vice President and Assistant General Manager. In 2011, Ng transitioned to MLB as Senior Vice President of Baseball Operations, becoming the highest-ranking woman working in the Commissioner's Office. She held that position until the Marlins hired her in November 2020.

In 2015, Forbes ranked Ng #13 on its list of the most influential minorities in sports and #5 on its list of the most powerful women in sports. In 2021, she was selected for the inaugural 2021 Forbes 50 Over 50 made up of entrepreneurs, leaders, scientists, and creators who are over the age of 50.

Our Annual Impact

In 1993, the Asian Pacific Fund was created in response to the community's desire to have more philanthropic dollars invested in the Bay Area's API community. Since then, with the support of our corporate partners and other donors, the Asian Pacific Fund has become the only nonprofit community foundation dedicated to addressing the hidden needs of all the ethnic communities under the API umbrella.
