

New Participant Introduction

We're excited that your organization is participating in Give In May this year! We hope the campaign will help bring in additional funding for your programs, your services and the community you serve. The success of your campaign depends greatly on the effort you put into it. Take advantage of the toolkit and list of resources to maximize your organization page and to create an outreach plan.

GETTING STARTED

If you have not used Mightycause before or do not currently have a Mightycause webpage, you will need to build one before you can start receiving donations. Click [here](#) for instructions on how to start.

Your page will not include any of the information you entered on the registration form. We strongly suggest that you go through and personalize it as much as you can. This is the only place donors can learn about your nonprofit. The page is easily customizable and you can edit text, add images, etc.

NOTE: For your page to be compatible with the search bar (different from search filters) and to make it easier for prospective donors to find you, you must include keywords in your "About" section. For example, if a donor typed in "Pacific Islander" and your organization serves the community, you must include the words "Pacific Islander" on your page for your organization to show up in the search.

QUESTIONS?

For questions about the Give In May campaign, please email: GiveInMay@asianpacificfund.org

For questions about the platform, building your webpage, pulling reports, etc., please email the Mightycause support team at: support@mightycause.com
